Chapter	Section	Page(s) in version 1.18.11	Change
3	—	—	Updated language throughout to be gender neutral.
3	—	—	Updated screen captures of all items.
3	I0020	I-1	<p>Replaced screenshot.</p> <p><b>OLD</b></p>  <p><b>NEW</b></p> 
3	I0020	I-2	<ul style="list-style-type: none"> <li>Indicate the resident's primary medical condition category that best describes the primary reason for the Medicare Part A stay; then proceed to I0020B and enter the International Classification of Diseases (ICD) code for that condition, including the decimal.</li> <li><del>While certain conditions described below represent acute diagnoses, SNFs should not use acute diagnosis codes in I0020B. Sequelae and other such codes should be used instead.</del> When an acute condition represents the primary reason for the resident's SNF stay, it can be coded in I0020B. However, it is more common that a resident presents to the SNF for care related to an aftereffect of a disease, condition, or injury. Therefore, subsequent encounter or sequelae codes should be used.</li> </ul>
