1	1.2	1-3	<ul style="list-style-type: none"> Minimum Data Set (MDS). A core set of screening, clinical, and functional status data elements, including common definitions and coding categories, which form the foundation of a comprehensive assessment for all residents of nursing homes certified to participate in Medicare or Medicaid. The data elements (also referred to as “items”) in the MDS standardize communication about resident problems and conditions within nursing homes, between nursing homes, and between nursing homes and outside agencies. The required subsets of data elements for each MDS assessment and tracking document (e.g., Comprehensive, Quarterly, OBRA Discharge, Entry Tracking, PPS item sets) can be found in Appendix H on CMS’s website at https://www.cms.gov/Medicare/Quality/Nursing-Home-Improvement/Resident-Assessment-Instrument-Manual.
