3	—	X-2	<p>2. Inappropriate submission of a test record as a production record. Removal of a test record from iQIES requires manual deletion. Otherwise, information for a “bogus” resident will be retained in the database and this resident will appear on some reports to the facility. [[Moved, without text changes, to become item number 4.]]</p> <p>2. Record was submitted for the wrong facility. If a record was submitted to iQIES for an incorrect facility, the record must be removed manually and then a new record for the correct facility must be submitted to iQIES. Manual deletion of the record for the wrong facility is necessary to ensure that the resident is not associated with that facility and does not appear on reports to that facility.</p> <p>3. Record submitted was not for OBRA or Medicare Part A purposes. When a facility erroneously submits a record that was not for OBRA or Medicare Part A purposes, CMS does not have the authority to collect the data included in the record, and a manual deletion is required to remove it from the CMS database. For erroneous PPS assessments combined with OBRA-required assessments, if the item set code changes, the assessment must be manually deleted, and a new, stand-alone OBRA assessment must be submitted. If the item set code does not change, then a modification can be completed.</p> <p>4. Inappropriate submission of a test record as a production record. Removal of a test record from iQIES requires manual deletion. Otherwise, information for a “bogus” resident will be retained in the database and this resident will appear on some reports to the facility.</p>
