5	5.7	5-12	<p>The 10/01/2023 Cross-Over Rule</p> <ul style="list-style-type: none"> • A unique When item sets are updated, a situation may exist that will prevent providers from correcting the target date of any assessment crossing over from October 1, 2023 of a given year. That is, providers may not submit a modification to change a target date on an assessment completed prior to October 1, 2023 of a given year to a target date on or after October 1, 2023 of the same year, nor can they submit a modification to change a target date on an assessment completed on or after October 1, 2023 of a given year to a target date prior to October 1, 2023 of a given year when the MDS item sets have had substantial changes. • When The MDS item sets that are effective October 1, 2023 have had significant changes, including the omission and addition of many items or significant changes to existing items, clinicians will be required to collect and code new items, may have different look-back periods, or may need to code the MDS according to changes in the coding requirements. It is the target date of the assessment that identifies the required version of the item set, and, because of the substantial changes in that may exist between versions of the item sets, they are not interchangeable. Therefore, commonly when there are updates to item sets, providers may not change target dates on assessments crossing over October 1, 2023 of specific years.

5	5.8	5-13	<p>5.8 Special Manual Record Correction Request</p> <p>A few types of errors in a record in iQIES cannot be corrected with an automated Modification or Inactivation request. These errors are:</p> <ol style="list-style-type: none"> 1. The record has the wrong unit certification or licensure designation in Item A0410. 1. The record is a test record inadvertently submitted as production. [[Moved, without text changes, to become number 4.]] 2. The record has the wrong state code or facility ID in the control Items STATE_CD or FAC_ID. 2. The record has the wrong unit certification or licensure designation in Item A0410. [[Moved, without text changes, to become number 1.]] 3. The record submitted was not for OBRA or Medicare Part A purposes. 3. The record has the wrong state code or facility ID in the control Items STATE_CD or FAC_ID. [[Moved, without text changes, to become number 2.]] 4. The record is a test record inadvertently submitted as production.
5	5.8	5-13– 5-14	<p>Reordered existing guidance, without text changes, for special manual record correction request items to align with the new error list order on 5-13 (see previous item).</p>

5	5.8	5-14	<p>When a facility erroneously submits a record that was not for OBRA or Medicare Part A purposes, CMS does not have the authority to collect the data contained in the record. An inactivation request will not fix the problem, since it will leave the erroneously submitted record in the history file, that is, the CMS database. A manual deletion is necessary to completely remove the erroneously submitted record and associated information from the CMS database.</p> <p>In instances in which an erroneous PPS assessment is combined with an OBRA-required assessment, if the item set code does not change, then a modification can be completed. If the item set code does change as a result of a modification, the provider must complete an MDS 3.0 Manual Assessment Correction/Deletion Request. This action will completely remove the assessment from the database. As indicated, the provider would complete and submit a new, stand-alone OBRA assessment.</p>
