Long-Term Care Certification in Infection Prevention (LTC-CIP®)

The LTC-CIP® examination is the standardized measure of the knowledge, skills and abilities expected of professionals working in the field of infection prevention and control.

Is the LTC-CIP® for me?

The **LTC-CIP®** certification examination is geared toward the professional who has had at least one year of full-time experience in infection prevention and control within a long-term care setting. It is intended for individuals who are directly responsible for the infection prevention and control program activities within their current position.

Why Certify?

Your **LTC-CIP®** is more than just a credential. It's a tool that improves individual expertise, enhances career pathways, supports public health coordination, and strengthens patient safety efforts. For over 40 years, CBIC® certification has been widely regarded by healthcare leaders, professionals, and the public as a high-value credential that enhances both individual competency and institutional effectiveness in infection prevention.
